

Following the global success of Rivale Profile, with over 10,000 units deployed in under a year, Ayrton is proud to introduce the new Veloce Profile. As the second highly-advanced fixture in the “Ultimate” series, Veloce Profile combines cutting-edge design with exceptional performance.

Built on the concept of perfect scaling, this ultra-compact fixture sets new standards of integration with a sealed 850 W high-efficiency LED module, calibrated at 6500 K, delivering 43,000 lumens of luminous flux. Its optimal positioning on the black body curve ensures perfect light neutrality. Ayrton's dedication to maximizing the potential of every model without compromise has once again pushed the boundaries, optimizing every aspect for peak performance. At just 40.5 kg, Veloce Profile is the lightest fixture in its category.

★ KEY FEATURES

➤ Perfect scaling

All fixtures in the Ultimate series are of identical proportion. Veloce is 14% larger than Rivale in every way, giving the series a sense of harmony in its design.

➤ Versatility Redefined

Veloce Profile can function as profile, beam or spot with its extremely narrow 4 degree minimum zoom. It also comes equipped with a wide range of features to be truly versatile.

➤ Conscious Engineering

New lightweight aluminium components have been used to significantly reduce the overall weight, achieving the best weight-to-power ratio in its class without relying on costly or unstable special alloys.

➤ Weather-Proof for all-conditions

Like all fixtures in the “Ultimate” range, Veloce Profile is highly versatile, capable of operating in the most diverse environments, including both outdoor and indoor settings, as well as saline and freezing conditions.

➤ Full spatial control

Our new software enables continuous pan for Veloce Profile with tracking systems allowing seamless transitions without flipping. This eliminates the need for extra rigging or programming, and includes Tilt for added effects.
