GENERAL INFORMATION

The SolaPix family of wash fixtures from High End Systems takes the traditional concept of a pixel wash and pushes it to its maximum potential, and the SolaPix 19 XT takes it even further with an IP65 design specifically for temporary usage in exterior applications. As both a vacuum- and liquid-sealed product, this weatherproof fixture can go anywhere and be ready for the next gig.

Whether you are using the fixture to spread color all over a festival stage or outdoor event, the bright and punchy output will envelop your production with beautiful, saturated color. Additionally, when you need to add emphasis, the narrow zoom and fully macro- and pixel-controlled face gives you a wide variety of looks and effects to help set the mood and steal the show in any weather.

Applications

- Indoor or outdoor
- Live concerts
